

## *A simple proposal*

- **ORGANIZED PUSH:** Nothing changes unless we push.
- **By decolonizing** (see e.g. <https://drive.google.com/file/d/1Z1cgCF8OscxTfWZhR6JjgmAl1OuH9EQt/view> )
- **Creating a global constitutional convention** that is pluralistic and self-critical, using history
- **Adapting who we are** to create a new hybrid sensibility that draws on indigenous traditions – e.g., collective continuance or Maori “all matter matters” – as well as scientific and Enlightenment autonomy
